Jay Feather™

2009 Ultra Lite Weight Travel Trailers by Jayco®

Your Path to Traveling Light

Today's lifestyle means packing as much as you can into every minute. Workloads are heavy and personal calendars are hectic, but the burdens stop with the 2009 Jay Feather. The Jay Feather Ultra Lite Weight Travel Trailer can be towed by most SUVs* and mini-vans so getting away from the hustle and bustle of life has never been easier. Packed into its compact size is a variety of features and amenities aimed at making each getaway simple, stress-free and light.

SPORT

Just like the little engine that could, the Jay Feather SPORT packs a mighty punch in a small package. With exterior lengths from 16' to 21', the Jay Feather SPORT is our most light weight, compact model, perfect for quick trips and weekend getaways.

EX-PORT

Bring the best of two worlds together into one neatly-designed style. Combining the compact style of the SPORT with the expandability of the EXP, the Jay Feather EX-PORT gives you extra room for bigger groups while being light enough to be towed by most SUVs and mini-vans.

EXP

The Jay Feather EXP offers expandable sleeping areas, which give great interior room once you've reached your destination. Exterior lengths range from 19' to 29' and it sleeps up to 5 or 10. The EXP lets you maximize your living space while minimizing towing weight.

Built For Liveability

Durable Construction

Jay Feather travel trailers are constructed with high quality materials using production techniques perfected over the past 40 years. The Electro Galvanized metal backing strips, welded tubular aluminum sidewall framework **1** and seamless one-piece rubber roof **2** protect your investment and provide excellent resale value.

Designed for Liveability

Many features on the Jay Feather are designed to make travel more enjoyable and liveable, such as tinted safety glass windows **3**, attractive, easy-care carpet and high-quality carpet pads **4** providing enhanced durability and comfort.

Built for Value

Jay Feather EXP's & EX-PORT's lite weight steel frame **5** is 10-15% lighter and significantly more rigid than the frame of conventional travel trailers. Tapered rails place the strongest part of the frame over the axles. Instead of welding, our modular frame design features "huck" bolt assembly and interlocking dimples.

* Due to their Ultra Lite Weight design, Jay Feather models may be towed by most SUVs and mini-vans. Consult with your authorized automobile vehicle manufacturer and vehicle owner's manual. Certain optional equipment may be required and other restrictions may apply. Do not exceed the recommended towing capacity of your vehicle.

JAY FEATHER

The newly designed Jay Feather travel trailer is lighter, more compact and it comes at a very affordable price. It's ideal for families who need the ease of a smaller travel trailer, but need the amenities and expandability typically found only in larger travel trailers.

Inner and Outer Strength

TuffShell™ walls **6** and floor are constructed using a vacuum-bonded lamination process. TuffShell™ construction results in a smoother finish and a more durable body than traditional pinch-roller construction. Corrosion-resistant frames are completed with a 12-stage E-Coat™ finishing system adding to the Jay Feather's inner strength.

Expandability

Jay Feather offers the perfect combination of expandability and durability. The hard-wall slideout **7** provides rugged construction and lots of additional space. And it's still light enough that it can be towed by all SUVs and most mini-vans on the market.*

Jay Feather™ SPORT

2009 Ultra Lite Weight Travel Trailers by Jayco®

199 | SAND

Travel When You Want

The Jay Feather SPORT doesn't ask, "Where can we go?" It screams, "Where to next?" Under 23' long, it's compact enough to take on just about any outdoor adventure. The Jay Feather SPORT is towable by most SUVs* and mini-vans, making it perfect for a fast fishing trip or weekend away.

The full kitchen and full bath mean not having to worry about where you can go but being able to look forward to what's next.

* Consult with your authorized automobile vehicle manufacturer and vehicle owners manual.

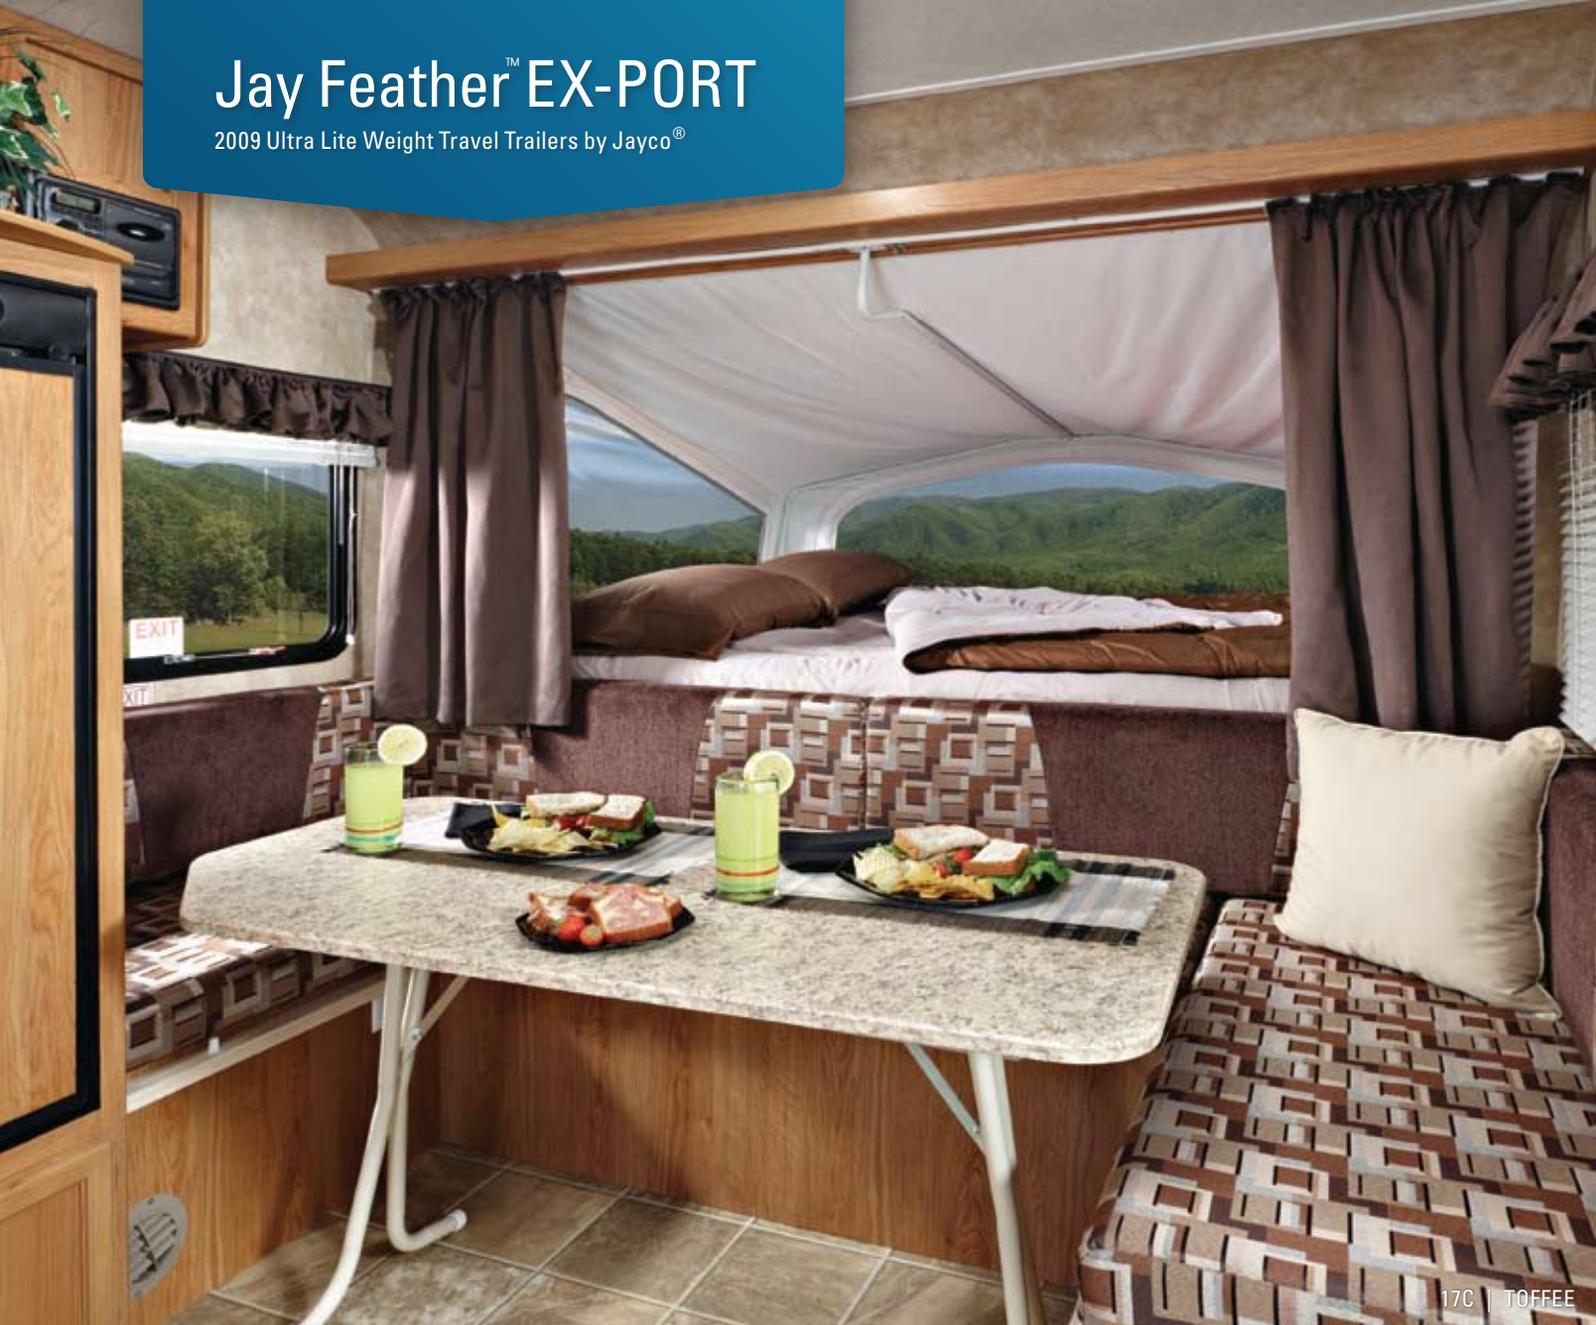

The Jay Feather SPORT comfortably sleeps up to five after a long day of outdoor fun.

Jay Feather™ EX-PORT

2009 Ultra Lite Weight Travel Trailers by Jayco®

17C | TOFFEE

Unfold A Fantastic Adventure

With hidden treasures waiting to unfold, the Jay Feather EX-PORT is the ultimate magician of light weight travel trailers. It's as light as a SPORT and can be towed by most SUVs* and mini-vans, yet it features the expandability of the EXP—providing extra room. The EX-PORT is two fantastic trailers molded into one that is equipped with all the essentials needed for a magical getaway.

* Consult with your authorized automobile vehicle manufacturer and vehicle owners manual.

Mealtime is quick and easy in the EX-PORT's efficient, fully-equipped kitchen.

Keep Your Space, and Still Travel Light

There's no need to give up space or amenities with the Jay Feather EXP. Expandable sleeping areas provide for a spacious slumber while the lightweight design makes towing a breeze. Rich in amenities and features, the Jay Feather EXP is a smart choice for those who choose to travel well—but light.

Whip up a meal quickly in this handy kitchen featuring a 3-burner range, microwave and double-bowl sink.

Sleek touches such as the curved shower track add a contemporary flair to the bathroom.

Get More ... Spend Less

Get the most out of your next travel trailer with Jayco's newly designed Jay Feather. The light weight Jay Feather combines easy towing and full-featured amenities like a 3-burner range, 6-cubic foot refrigerator, Multi-Media Premium Sound System™ and electric awning. Whether your kids demand a sound system with an iPod® input jack, your spouse wants a 19" LCD HD TV, or you want the ease of a full-featured kitchen, the Jay Feather delivers a light weight travel trailer that gives you more of what you want—at a price that can't be matched.

The main bedroom features a queen-size bed, lighting under the cabinets and plenty of storage.

Home cooked meals are made easily with Jay Feather's ample storage and fully-featured kitchen.

A LEGACY OF CRAFTSMANSHIP

Jayco's dedicated production team includes Amish craftsmen who build with well-honed woodworking techniques passed down for generations and skilled seamstresses who produce our upholstery, bedding and draperies with great attention to detail.

CONSTRUCTION HIGHLIGHTS

Jay Feather's ultra lite weight steel frame (EX-PORT and select EXP models) is 10-15% lighter and significantly more rigid than the frame of conventional travel trailers. Tapered rails place the strongest part of the frame over the axles. Instead of a welded frame, our modular frame design features "huck" bolt assembly and interlocking dimples.

TorFlex® independent torsion-axle suspension gives more ground clearance, provides a smooth ride, makes towing easier and reduces wear and tear by absorbing bumps.

The Poly Flex™ underbody is a one-piece moisture barrier covering that reduces drag for better fuel economy and protects from grime and road debris (EXP series only).

Corrosion-resistant frames are finished with a 12-stage E-Coat™ finishing system (select models).

TuffShell™ walls and floor are constructed using a vacuum-bonded lamination process. TuffShell™ construction results in a smoother finish and a more durable body than traditional pinch-roller construction.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle and the RV together before heading out on the roadways. When you tow an RV, you must drive differently than you do when driving a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specification chart above.

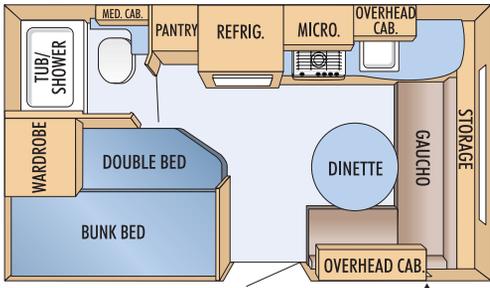

Unloaded Vehicle Weight (UVW): Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

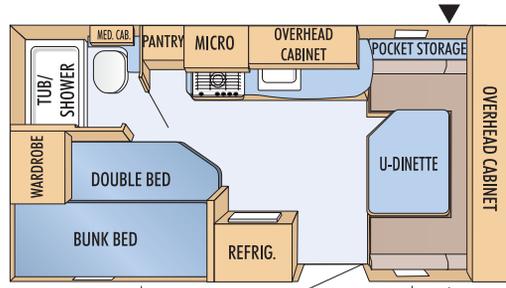

Cargo Carrying Capacity (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

AMERICA'S MOST **LIVEABLE** RVs.

IT'S ALWAYS BEEN ABOUT "LIVEABILITY"

Lloyd Bontrager went into the RV manufacturing business in 1968 to improve the camping trailer lifter system. He knew that a better lifter system would mean a more "liveable" camping experience for his family and so many others.

More than forty years later, and now the largest family-owned RV manufacturer in the world, this priority still rings true at Jayco. As we work to continue building "America's Most Liveable RVs", we do it with one goal in mind—to improve the RV experience and help make "family time" truly memorable.

We Back What We Build

The Jayco Co-Pilot Warranty is a manufacturer's limited warranty. It comes from the people who build Jayco recreation vehicles to the people who buy them. Each Jayco is warranted to the original purchaser for twenty-four (24) months or twenty-four thousand (24,000) miles (mileage limitation applies to motorized products only), whichever occurs first, from the original date of purchase against defects in materials and workmanship. Jayco's limited warranty is not transferable. Go ahead and compare the Jayco warranty with other manufacturers' warranties. You'll find it's the best in the business!

For a copy of the limited warranty with full terms and conditions, ask your local Jayco dealer.

Why a Local Jayco Dealer is Important to You

Establishing a solid relationship with your local Jayco dealer is a key component in the enjoyment of your new Jayco. By purchasing from a local dealer, you will have a convenient location for sales, parts and service support.

Jayco dealers are required to deliver all products at the site of the sale to ensure a full product orientation and walkthrough at the time of delivery. It's a good way to become familiar with your Jayco and to meet the service, parts and warranty staff members who will be assisting you. If you live in Canada, there are regulations that must be met when buying a Jayco RV. Your local Canadian dealer is a professional at meeting these requirements and regulations. There simply is no substitute for a good relationship with your local Jayco dealer.

Your Jayco Dealer

Jayco proudly sponsors Tread Lightly!®, a nonprofit organization whose mission is to empower generations to enjoy the outdoors responsibly through education and restoration.

From RV insurance to extended warranties, JayPlus has it covered. Ask your Jayco dealer about our exclusive JayPlus program today.

As a Jayco owner, you can be part of the Jayco Jafari International Travel Club. Ask your dealer about the Jafari "flight" in your area, write Jayco or visit our website.
